## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a) in the specification, on page 1, line 6, after "serial number" adding --  
10/705,524--,
- b) in the specification, on page 1, line 9, after "number" adding --10/705,369--,  
and
- c) in the specification, on page 1, line 11, after "in the UPSTO on" adding --  
November 10, 2003--.

### ***Allowable Subject Matter***

- 1. Claims 1-12 are allowed over the prior art.
- 2. The following is an examiner's statement of reasons for allowance: regarding claim 1, the primary reason for the allowance of the claim is due to arguments by the applicants on page 4, 1<sup>st</sup> paragraph, in regards to the limitation of a signal generator means. The applicant states: "By comparison, in patent '388, the test signals are not shifted in time from one chip holding subassembly to another. Instead in patent '388, all of the chip holding subassemblies are sent the same test signals at the same time. This occurs in patent '388 because there, all of the chip holding subassemblies are moved from the "open" position to the "closed" position (which is where the chips are tested) at the

same time.” Since claims 2-12 depend from claim 1, they also have allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
